2026 LOOKBOOK

## FOOTPRINTS IN THE SAND

For nearly three decades our journey has taken us all around the world. We have gotten to visit the most colorful markets, remote villages, and a ton of “roads less traveled” to search out interesting small factories, materials, and unique finds to bring to the Jamie Young Company.

Our 2026 lookbook is filled with the best we have to offer in all categories of the home. This is just a “look” into the entire collection with so much more to come through out the year. With less focus on perfection in mass produced designs and more attention to the stunning materials, details in quality and the hand touch to each item highlighting the imperfections that make them special and unique, Jamie Young Co. continues to stay true to our DNA. We are leaning into the warmth of the human touch on every product we make. Adding warm tones that mimic nature and continuing our natural materials and organic shapes with a nod to traditional and familiar shapes.

As always, we are in stock, ship quickly, and work hard to make sure your journey working with us is an easy one!

With gratitude,

**JAMIE YOUNG CO.**
